TECHLIGHT FREIGHT AGREEMENT

Techlight makes every effort possible to ensure our products are delivered on time, intact and with reasonable freight rates applied. Due to the unique logistical requirements of pole deliveries and delivery destinations, Techlight requests the following Freight Agreement be filled out completely and signed by an authorized purchaser representative. If the purchaser does not wish to specify a Preferred Delivery Option, Techlight will default to our best judgement for the delivery means at the time of shipment.

PREFERRED DELIVERY OPTION

Please check one option:

NO PREFERENCE

The customer agrees to allow Techlight to determine the "Best Way" of shipment for the goods purchased. Techlight will choose the method that will be most economical and most likely to arrive without incident.

LTL - Common Carrier

Least expensive in most cases. Poles will arrive in a box van. Maximum 30' pole length. Delivery must be accepted even if freight is damaged (damage should be thoroughly noted on BOL upon receipt). Shipment may be interlined with a second carrier. Please note any delivery requirements such as "lift gate required" in the Special Instructions Section below. It is the purchaser's responsibility to ensure that a means for off loading the poles is readily available at time of delivery.

FLAT BED - Shared Load

Poles will be loaded and shipped on the same truck with additional pole orders being shipped to that delivery area. The poles will be shipped according to Techlight's shipping schedule. Poles will arrive with a lower chance of being damaged in shipment. The shipment will not be interlined with a second carrier. It is the purchaser's responsibility to ensure that a means for off loading the poles is readily available at time of delivery.

FLAT BED - Dedicated Load

Poles will be loaded and shipped on a dedicated truck according to an agreed upon schedule between the buyer and Techlight. Shipping costs may be proportionately higher if a less than full load is being shipped. The shipment will not be interlined with a second carrier. It is the purchaser's responsibility to ensure that a means for off loading the poles is readily available at time of delivery.

REQUESTED DELIVERY BY: _____ (date)

CONTRACT LOAD

Poles will be loaded and shipped on the same truck with material delivers (not Techlight) shipped to that delivery area. The poles will be delivered according to Contract Freight Carrier's delivery schedule. Poles will arrive with a lower chance of being damaged in shipment. The shipment will not be interlined with a second carrier. It is the purchaser's responsibility to ensure that a means for off loading the poles is readily available at time of delivery.

NOTE: All shipments are FOB Origin. It is the purchaser's responsibility to file all freight claims directly with the carrier.

NOTE: Certain pole sizes and quantities may require that a specific carrier be used other than the purchaser's Preferred Delivery Option. In those instances, a Techlight representative will contact the purchaser prior to the poles being shipped.

NOTE: Delivery costs and schedules are subject to change based on the availability of trucks at the time of shipment.

SPECIAL INSTRUCTIONS:

The signatory below acknowledges that he/she has read and understands Techlight's Freight Terms and Conditions and that both parties are, in good faith, entering into an agreement pertaining to the delivery method chosen by the purchaser.

TECHLIGHT FREIGHT AGREEMENT

TECHLIGHT GENERAL FREIGHT TERMS AND CONDITIONS

Go to www.techlightusa.com for Techlight's Complete Credit Terms and Conditions

SHIPPING & FREIGHT

Freight charges will normally be added to your invoice unless the order meets the pre-paid freight allowance. We suggest a freight quote be obtained on all pole orders.

Techlight reserves the right to select the carrier of its choice. If a specific carrier is requested, the purchaser will be charged the freight cost. Pre-shipment of Anchor Bolts and Templates are available at the purchaser's expense.

FREIGHT ALLOWANCE

FIXTURE orders ONLY of \$2,000.00 or more delivering within the Continental United States will be shipped freight allowed (this includes both Techlight and Horizon fixtures or any combination of each that exceeds \$2,000 on any single purchase order). On any POLE and/or FIXTURE order of \$5,000.00 or more, Techlight will contribute 5% of the total sales order value (excluding freight) towards the cost of the freight. Freight quotes must be obtained and freight must be included on all purchase orders for Techlight contribution to apply. Consult with your representative for shipment lead times. Techlight freight allowed shipments will ship per the current Techlight schedule. If a purchaser refuses the shipment as scheduled by Techlight, the purchaser will be required to provide a purchase order for the freight cost to re-consign the shipment to another truck or carrier. Freight quotes are estimates only and are subject to change without notice. Delivery costs and schedules may be subject to change based on the availability of trucks at the time of shipment. Techlight reserves the right to change the freight policy without prior notification.

PARCEL FREIGHT

For overnight or 2nd day service, orders must be received by 12 P.M. CST to guarantee same day shipment. Orders shipped by motor freight usually take four to five days to reach destinations on either coast. Buyers should direct requests for C.O.D. with their Techlight representative. UPS has several programs available to suit your needs.

GROUND UPS shipments usually take four to six days to reach the east coast, five to seven days to reach the west coast, 4 days to the mid-west, and one to two days within Texas.

SECOND DAY AIR is more expensive, yet guarantees delivery two days after UPS receives parcels. Weekend delivery must be specified. Techlight is not responsible for any losses or damage to goods subsequent to shipment. Techlight will assist you in resolving or processing any claims that may arise against carriers.

INSURANCE

Insurance can be applied to the purchaser's shipments at the purchaser's expense. Unless the purchase order specifically requests insurance, no insurance will be provided.

DELAYS, DAMAGE, or LOSS

Techlight is not and shall not be liable for delays in shipments or deliveries of product when caused by strike, riots, hurricanes, civil disorder, fires, material shortages, breakdown in manufacturing facilities and/or any other cause beyond its reasonable control, nor the inability to ship by the acknowledgement date. Any claim for damages, loss, or shortages in transit must be made by the purchaser to the delivering carrier. The risk of loss or damage passes on to the buyer upon delivery to the carrier.
