- BZ - Bronze
- GR - OD Green
- WH - White
- SP - Special

## DESIGN

The TLLVSLD Step Light is unobtrusive and functional. Step Lights can be integrated into almost any recessed application. Light stairs, railings, congregating areas, planters, paths, or even a home theater room. The TLLVSLD is ideal for high traffic areas where a smaller step light will not provide an adequate amount of light.

## TECHNICAL INFORMATION

Constructed of a stamped steel louvered faceplate and die cast aluminum recessed box. It comes standard with two 20W 12V halogen light sources, tempered glass lens, and gasket. Provided with a 3' long 18 ga. whip and low voltage connector. The faceplate is finished with a durable polyester powdercoat paint.
