DESIGN

The TLLVSL Step Light is unobtrusive and functional. Step Lights can be integrated into almost any interior recessed application. The discrete size of this fixture allows it to be integrated into almost any recessed application. Light stairs, railings, congregating areas or a home theater room.

TECHNICAL INFORMATION

Constructed of a stamped steel louvered faceplate and single gang recessed box. It comes standard with a 10W 12V Xenon light source, tempered glass lens, and gasket. Provided with a 3' long 18 ga. whip and low voltage connector. The faceplate is finished with a durable polyester powdercoat paint.
