FEATURES & SPECIFICATIONS

APPLICATION — The high lumen output luminaire is designed to be a replacement for HID and fluorescent high bays or low bays. It is optimal for lighting applications where long life, low maintenance, and consistent color rendering is required. Areas with limited accessibility due to fixture location or where heavy pedestrian or vehicle traffic makes maintenance difficult are ideal applications. The high wattage/lumen output allows the fixture to be used for warehouse, manufacturing and big box retail applications.

CONSTRUCTION — The HOLH body and housing assembly are ruggedly constructed from 22ga cold rolled steel sheet. Fixture is assembled with special thread forming sheet metal screws to prevent loosening from vibration. All hardware is zinc plated steel. Rigid stiffening brackets prevent twisting and bowing. Engineered for exceptional thermal performance using lightweight aluminum thermal LED heat sinks. Open structure design allows for natural convective cooling. Wireguard attachment points provided.

FINISH — HOLH Series body and driver housing powder coated with lighting white high reflectance (93%) polyester paint.

OPTICAL SYSTEM — High efficiency linear LED modules with acrylic diffusers provide a medium-wide light distribution with exceptional vertical and horizontal performance. Optics provide 93% transmittance of light.

ELECTRICAL SYSTEM — Class 2 long life LEDs and high efficiency drivers work together to provide superior performance in a safe and efficient package. HOLH provides a wide range of output options, from 8,000 to 96,000 lumens. L95 at 10K hours L70 ≥ 50K hours. LEDs available in 4000K and 5000K with a CRI
